Problem & Opportunity

!!!

Dünya’da her yıl 600M kişi kontamine gıdadan hastalanıyor (WHO).

Weak Oversight

Hygiene inspections rely on staff, remain slow and subjective. Compliance gaps emerge.

Hidden Hazards

Missing PPE and unsafe behaviors cause contamination, accidents and reputation damage.

Data-Less Decisions

Without records and analytics, businesses cannot see patterns or improve processes.

Solution & Value Proposition

!!!

ABD’de gıda kaynaklı hastalıkların yıllık maliyeti ~17.6 milyar $ (CDC).

Siyel is a system that monitors hygiene, safety and operations in professional kitchens with real-time AI and instantly reports violations.

Real-time detection

Instant alerts & reporting

24/7 automatic & unbiased inspection

Compatible with existing cameras, low-cost scaling
